The leasing of MMX Corumbá's mining rights includes (i) iron ore manufacturing plant with current production capacity of 2 million tonnes of iron ore per year, (ii) mining applications and concessions, and research applications and permits corresponding to an area of more than 100,000,000 m², and (iii) a stock of iron ore already mined.

In accordance with the contractual terms, the leasing amount is fixed at five hundred thousand dollars (US\$500,000.00) per year, to be paid in monthly installments, each of which corresponding to one twelfth (1/12) of said amount, in reais, as of the 4th month following execution of the agreement and valid for 36 months, an amount that may be partially reduced if all the shares issued by MMX Corumbá are acquired by Vetria.

The transaction also includes the signing of a document for future acquisition, by Vetria, of all the shares issued by MMX Corumbá.

Both the leasing of the mining rights and the eventual acquisition, by Vetria, of all the shares issued by MMX Corumbá are contingent upon compliance with several precedent conditions, such as approval by the pertinent government authorities, among which the release of the list of assets controlled by the Internal Revenue Service, which currently includes MMX Corumbá shares, for the purpose of selling the asset.
